

Truck weighbridge at Mussalo – user instructions

- 1.** Wait in front of the boom until the previous vehicle has left the weighbridge and the boom is in the upper position. Follow the display messages if the boom does not open, and act according to the instructions given on the display.

- 2.** Use a steady walking speed to drive up to the driver terminal (the small picture) of the long weighbridge so that the driver terminal is beside the driver. Avoid sudden braking.

- 3.** Open the window and act according to the instructions given on the display of the driver terminal.

- 4.** Leave the weighbridge. Avoid sudden acceleration.
